

## ***COSHH Assessment - HB40 High Grab Adhesive Sealant - HB40 Adhesive***

<b>Description of Substance</b>	An advanced elastomeric sealant and powerful bonding agent based on hybrid polymer technology
<b>Method of Use</b>	Ensure that surfaces to be bonded/sealed are clean and free from dust, grease or any other contaminant liable to impair adhesion. For bonding, apply in beads or dots and press together until cured. For full bonding, apply in beads and comb out using a glue spreader, then press together until cured. Large areas of two impervious surfaces should NOT be fully bonded as this product needs atmospheric or substrate moisture to cure.
