# Decorative Walls, Ceilings & Floors

## Why choose our interior panels?

Our high quality range of interior decorative wall, ceiling and floor finishes offer superior durability making them ideal for bathrooms, wet rooms and shower enclosures.

Whether you want to create a calm, relaxing space or opt for a more dramatic contemporary effect, you're sure to find the right look with Interior Panel Systems.

Available in a variety of sizes, our panels can be up to 50% faster, and therefore more economical to install than traditional tiles. Fitting is quick and easy without the need for grout, giving a seamless finish and removing risk of mould formation.

**The easy DIY alternative to tiling.**

Easy to clean and ultra-low maintenance

Seamless hygienic finish

Waterproof joints

10 year guarantee

Wide choice of colours and effects

Quick and easy installation - no messy grout

Waterproof, interlocking floor finishes

*“Great product! It looks beautiful in my bathroom. Good company to do business with, quick and prompt delivery.” S. Pope, UK*

# AquaBord T&G

## Tongue & Groove Wall Panel Range

The AquaBord T&G panel range combines luxurious effects with elegant designs, provides a highly durable and functional alternative to marble, stone or contemporary tiles.

With tongue and groove joints and a standard width of 1000mm, AquaBord T&G offers quick and easy grout-free installation with no visible screws or nails, making them the ideal choice for shower enclosures and wet rooms.

Available in a wide variety of colour and pattern options, AquaBord T&G panels enable you to create striking visual effects that will transform your bathroom.

### Panel Specification

Panels are lightweight uPVC with a watertight tongue and groove joint. Panels should be fixed to a flat, solid surface using high-grab adhesive, 2 per panel.

# AquaBord Laminate

## Wall Panel Range

The **AquaBord Laminate** range features a high pressure decorative laminate finish bonded to a water-resistant core providing a lightweight but extremely tough and hard wearing panel.

Offering superior quality combined with a super-smooth scratch-resistant finish and outstanding durability, **AquaBord Laminate** is a practical and tactile alternative to tiles.

As with AquaBord T&G, **AquaBord Laminate** provides quick and easy grout-free installation with the additional benefit of a wider panel - ideal for panelling of shower enclosures.

### Panel Specification

Each panel is 1.2m wide, 2.4m long and 10mm thick.

Panels are lightweight requiring a joint trim. Panels should be fixed to a flat, solid surface using high-grab adhesive, 2 per panel.

# ProClad

## Professional Wall Panel Range

The **ProClad** range offers a unique finish for a broad range of applications, from bathrooms and wet rooms, to beautiful feature walls and kitchen splashbacks.

Made from solid uPVC, **ProClad** panels are extremely durable with high impact-resistance (if fitted to a solid substrate) and provide grout-free installation, creating a hygienic, easy to maintain environment.

Colour co-ordinated trims and silicone are available for all options for the finishing touch.

### Panel Specification

Each panel is 1.22m wide, 2.44m long and 2.5mm thick.

Panels should be fixed to a flat, solid surface using high-grab adhesive, 2 per panel.

# AquaClad

## Narrow Tongue & Groove Wall & Ceiling Panel Range

The **AquaClad** range features a wide choice of contemporary colours and patterns enabling you to create striking visual effects making your home as individual as you are.

**AquaClad** panels are 250mm wide, available in 2.6m or 3m lengths\*, 8mm thick and supplied in packs of 4 or 5. Just like all our products, **AquaClad** wall and ceiling panels are quick and easy to install providing a seamless professional finish.

\*Length dependent on colour selected. Please speak to us for further information.

### Panel Specification

When used on the walls, the panels should be fixed to a flat, solid surface using high power flexi bond adhesive. For the ceiling, the panels can be screwed onto battens at 300 – 500mm intervals.

5mm thick.

Tiles should be fixed to a flat, solid surface using high-grab adhesive.

# AquaFloor

## Natural-Look Flooring Range

The AquaFloor range is specifically designed for bathroom floors where the regular contact with water often prevents the use of traditional laminate flooring. Using the same easy fit interlocking system as traditional laminate flooring, but manufactured from waterproof polymers instead of MDF, AquaFloor gives the desired effect without the worry!

Available in two formats, tiles and planks, AquaFloor offers nine natural-look stone or wood effects that provide a durable, long-lasting and luxurious floor covering for both domestic and commercial applications.

Featuring 'angle-loc' glue-less installation, each tile or plank incorporates a coloured micro bevel on all four sides to further enhance the natural look.

AquaFloor offers a 'Lifetime' wear warranty for domestic applications and a '10 year' warranty for commercial applications.

2 Part Trims - only visible component coloured.

### Cladseal

Cladseal is a bath and shower tray sealing system used in conjunction with AquaBord T&G and AquaClad, combining a rigid PVC strip with sanitary silicone.

Ledge  
Sanitary silicone  
Bond breaker tape

### Panseal

Panseal works in the same way as the Cladseal profile, but with the silicone also applied to the area where the AquaBord Laminate panel sits, ensuring the core of the panel is fully protected.

Ledge  
Sanitary silicone  
Bond breaker tape

### Sealux

The Sealux profile is suitable for our ProClad panels, as it accepts a thinner profile of board. As with Cladseal, the silicone is concealed and protected inside the trim.

Ledge  
Sanitary silicone  
Bond breaker tape

### High Power Flexi Bond

Our high grab adhesive is perfect for bonding wall and ceiling cladding. This flexible bond adhesive has a tenacious grab to virtually all substrates. Also doubles up as a durable, waterproof sealant.

### Silicone Sealant

This sealant is available in all the ProClad colours.
